PURPOSE

Use this coaching worksheet to connect your experience to a specific leadership need honestly. Leave with a credible coach biography that can be tested in real, respectful, consent-based work.

WHY THIS MATTERS

Start with sponsor interviews, manager challenges and permissioned programme feedback. Watch for inflating corporate credentials. Review bio-to-discovery meeting rate as a learning signal, not a promised result.

QUICK REFLECTION

Which dimension is the best starting point for this focus: connect your experience to a specific leadership need honestly?

DEEP WORK I

Coach Bio Evidence

Use actual evidence. Separate what happened from what you assume it means.

01 / CURRENT PICTURE

01 Review sponsor interviews, manager challenges and permissioned programme feedback. What observed moment shows the need to connect your experience to a specific leadership need honestly?

02 What did the leader, colleague or sponsor actually say or do? Record one concrete example.

02 / THE LEVER

03 When you try to connect your experience to a specific leadership need honestly, which step breaks down first, and in what context?

04 What assumption are you making that the evidence does not yet support? How could you check it?

03 / PRACTICE & TEST

05 Coach question: Which claim can a client verify independently?

06 How could you replace inflating corporate credentials with a fair, specific and testable move?

DEEP WORK II + WORKSHEET

Coach Bio Evidence

Build a usable artifact, then pressure-test it with a real-world scenario.

07 What must a credible coach biography contain to help the user connect your experience to a specific leadership need honestly? Name the first two decisions it supports.

08 Where might inflating corporate credentials show up? How will you notice it and adjust before a colleague or participant is affected?
