

OVERVIEW

Outcome Claim Audit

Diagnose the situation, choose a target and capture the first insight.

CLIENT / ACCOUNT	COACH	SESSION DATE

PURPOSE

Use this coaching worksheet to separate controllable behaviors from uncontrollable deal results. Leave with a claims-and-evidence audit that can be tested in real, buyer-respectful work.

WHY THIS MATTERS

Start with client interviews, sales performance data and coach discovery notes. Watch for promising close rates without baseline data. Review substantiated claims ratio as a learning signal, not a promised result.

SELF-ASSESSMENT / SCORE EACH DIMENSION 1 TO 10

LOOK FOR	NOW /10	GOAL /10
01 Buyer fit		
02 Problem clarity		
03 Proof quality		
04 Differentiation		
05 Message recall		
06 Commercial relevance		

QUICK REFLECTION

Which dimension is the best starting point for this focus: separate controllable behaviors from uncontrollable deal results?

DEEP WORK I

Outcome Claim Audit

Use actual evidence. Separate what happened from what you assume it means.

01 / CURRENT PICTURE

01 Review client interviews, sales performance data and coach discovery notes. What observed moment shows the need to separate controllable behaviors from uncontrollable deal results?

02 What did the buyer, seller or sponsor actually say or do? Record one concrete example.

02 / THE LEVER

03 When you try to separate controllable behaviors from uncontrollable deal results, which step breaks down first, and in what context?

04 What assumption are you making that the evidence does not yet support? How could you check it?

03 / PRACTICE & TEST

05 Coach question: Which outcome can you measure and influence directly?

06 How could you replace promising close rates without baseline data with a fair, specific and testable move?

DEEP WORK II + WORKSHEET

Outcome Claim Audit

Build a usable artifact, then pressure-test it with a real-world scenario.

07 What must a claims-and-evidence audit contain to help the user separate controllable behaviors from uncontrollable deal results? Name the first two decisions it supports.

08 Where might promising close rates without baseline data show up? How will you notice it and adjust before a client or buyer is affected?

EXPERIMENT LOG

Complete five rows while building a claims-and-evidence audit. Use only approved, non-sensitive examples.

BRING INTO THE NEXT COACHING CONVERSATION

Ask: Which outcome can you measure and influence directly? Check: substantiated claims ratio.

ACTION PLAN

Outcome Claim Audit

Move from insight to observable practice, with a realistic measure and review date.

FROM INSIGHT TO ACTION

STEP	PRACTICE ACTION	BY WHEN
01 REVIEW	Inspect one real example from client interviews, sales performance data and coach discovery notes. 	
02 BUILD	Draft a claims-and-evidence audit using that evidence. 	
03 REHEARSE	Practise the move with a coach or peer and request one correction. 	
04 TEST	Try it in one relevant, permissioned buyer or client interaction. 	
05 ADAPT	Review substantiated claims ratio and change one thing. 	

SUCCESS METRIC

Leading signal: substantiated claims ratio. Choose a baseline and a realistic target; outcomes are not guaranteed.

MILESTONES / WHEN WILL YOU LOOK FOR EVIDENCE?

MAIN RISK

COMMITMENT & FIELD NOTES

Outcome Claim Audit

Agree the next move, track what happened and return with evidence.

MY COMMITMENT

In the next relevant situation, I will use a claims-and-evidence audit to separate controllable behaviors from uncontrollable deal results.

IF THIS GETS IN THE WAY, I WILL...
